Vol. XVI. No. 6.

EDMONTON, ALBERTA, MONDAY NOVEMBER 20TH, 1893.

SEMI-WEEKLY, 4 PAGES.

TELEGRAPHIC.

Winnipeg, Nov. 20.

Don Pedro's son has been proclaimed Emperor of Brazil.

Sir Robt. Morier, British ambassador at St. Petersburg, is dead.

The contract has been signed to lay another Atlantic cable from Ireland to Nova Scotia.

Foster and Angers reported in Ottawa that they found no free traders in the North West.

The great boodle trial at Ottawa is closed. The verdict is expected to-morrow. Conviction is predicted.

A boy named Hall has been convicted at Brandon for murdering his master, named Graves. He has been sentenced to hang on December 15th.

The steamship Dominion, of the Dominion Line, caught fire on the ocean. All the cattle were burned. The vessel narrowly escaped being burned.

A crash with a main for wrecking train has been doing his best to damage the C. P. R. by placing obstructions on the track. The police can't catch him.

A London cable says that 130 tons of steel rails have been shipped to British Columbia via Cape Horn, for the British Pacific Railway which is to be run via the Yellow Head pass.

Terrible storm along the British and French coasts. Two hundred drowned along the British coast and 300 along the French coast. Immense damage done to shipping besides.

LOCAL.

There was sleighing at this time last year.

MANY of the miners are still at work on the river.

BRIGHT calm and warm to-day, and the snow all gone once more.

A large skating party went out to Horse lakes on Saturday afternoon.

MR. and MRS. F. D. FORTIN accompanied Capt. Segers to the Landing, leaving on Saturday afternoon.

THE H. B. Co., Jas. Walsh, R. Secord and E. Carey are purchasing fur for cash this season in Edmonton.

JAS. WALSH has purchased \$305 worth of fur from L. Chastelaine of Egg lake. This is the first purchase this season.

J. M. CLARKE of the H. B. store Edmonton returned on Thursday's train from Broadway Assiniboia, with his bride.

S. BARBER, manager of the Imperial bank, Calgary, is about to retire from the bank and go into the lumber business in Golden B. C.

THE mail which arrived on Thursday's train did not get across the river until Friday morning owing to the dangerous state of the crossing.

TEAMS began crossing the river on the ice below Fraser's mill on Friday, but the ice was not sufficiently secure for heavy loads even on Saturday.

ON Tuesday and Wednesday nights last the reflection of large prairie fires could be seen south of the Beaver hills. The snow of Thursday quenched them.

Does mixed farming pay? A farmer in the Sturgeon settlement sold \$900 worth of pork about this season. This would be equal to a crop of 1,000 bushels of wheat at present prices.

A COMPANY is applying to parliament for authority to construct a railway from a point on the C. & E. railway between Calgary and Olds to the Red Deer Forks road station. Costigan, McCull & Bange, solicitors.

THE Daily World of Vancouver, B.C., for November 4th is to hand. The paper has eight pages of eight columns to the page, about three-fourths of which is reading matter set by the Linotype type casting machine, the very latest and best thing in mechanical type setting. The paper contains cuts of the machine and descriptive matter as well. The work done as shown in the paper is excellent and in every way equal to the work done by means of movable type. It has taken the printing art 450 years to arrive at any substantial improvement on the method of type setting practiced when it was first invented, but in the Linotype machine it has got there at last.

ARMED it is a week since the river closed at Edmonton, crossing with loaded teams is still dangerous, and from present weather indications may remain so for some time. On Saturday night as M. Maloney was crossing with a heavily loaded team below Fraser & Co's mill the hind wheels of his wagon went through the ice, but no further damage was done. This morning a number of teamsters and livery men went to work to make a safe crossing from Fraser & Co's landing to the south side, by spreading hay on the ice and then throwing water on it, with a view to having the water freeze and thereby thicken the ice at that place.

MEDICINE Hat Times: During the past week two extensive prairie fires, one south of here, the other west of Maple Creek, have destroyed thousands of acres of valuable water feed, and should the present mild and dry weather continue, as seems probable, there is danger of much greater damage being done. From different districts of both the Northwest and Manitoba come reports of disastrous fires. In view of the tremendous loss annually to the country from this source, our legislators should redouble their efforts to give the country some means of protection. The ranching districts especially demand this and would not object to even a large outlay on any scheme which would give them something like adequate immunity from this scourge. Considerable work along this line has already been accomplished in an isolated way by the ranchers themselves and we are pleased to note the Northwest Government has made a start this season. We trust next year to see more concerted action between the Government and stock men. The future prosperity of the country is at stake in this matter, and we cannot afford to calmly wait for something to turn up to better existing conditions.

MISS MASON, who has been seriously ill for the past week, is recovering.

THE C. P. R. cheap eastern excursion rates are expected to arrive on to-night's mail.

TRAIN left Calgary on time with 2 cars way freight, 2 cars flour, and one extra coach.

SEVEN soldiers were enrolled in the Salvation Army at the Edmonton barracks yesterday afternoon.

SNOWING and drifting at Calgary all last night. About a foot of snow this morning and still drifting.

A THANKSGIVING service will be held in Holy Trinity church South Edmonton on Thanksgiving day, Thursday, Nov. 23rd at 11 a. m.

A. ROY is erecting a dwelling 22x36, two stories high, on the Methodist Mission property. The building will be frame on a brick foundation.

REV. MR. HANNA's sermons in the Methodist church yesterday morning and evening were on the subject of missions. The collections were in aid of Methodist missions.

THE annual Thanksgiving service will be held in All Saints church Edmonton on Thursday evening at 8 o'clock. The choir is preparing special music. The collection will be in aid of the Home Mission Fund.

THE bishop of the Church of England diocese of Calgary is expected to arrive for Sunday next, when the Rev. A. Stenden will be inducted during the morning service. At 7 p. m. the bishop will formally open the church at South Edmonton.

CALGARY Herald: New settlers for Alberta continue to come in every day. A couple of young men named Niblock and Anderson arrived from Washington yesterday en route for Northern Alberta with Fitzgerald & Lucas' certificates. They go north to-morrow.

R. SECORD will ship the more bulky portion of his lot of fur on to-morrow's train to C. M. Lamson & Co., London, England. The fine fur was shipped last week. The present lot includes 350 musk ox robes, the largest lot ever brought out by any private trader. Also a large number of bear skins, beaver and rats.

ADJUTANTS McMillan and Evans of the Salvation Army arrived on Thursday's train and gave light views illustrating General Booth's darkest England scheme in Robertson hall on Saturday evening. The hall was well filled with an interested audience. The views illustrated the subject very clearly, and were accompanied by full verbal explanations. Another set of views will be given to night in the same place.

D. MCKEAY, who is mining on the river this fall has a small pile of pure gold dust, a very pretty curiosity. It may not be generally known that although the gold is found in fine dust only it is seldom offered for sale in that state, owing to the difficulty of separating it from the black sand, in conjunction with which it is always found. The dust is taken up by quick silver, forming an amalgam of the consistency of paste. The quick silver is then evaporated by heat, leaving a fine but porous mass of pure gold, in which state it is offered for sale. In the form of dust the gold is worth \$18 an ounce.

A. PRINCE, M. L. A. for St. Albert, returned on Saturday from a trip to Lac la Biche. He went by way of the new direct road from St. Albert and returned by way of Whitefish lake and Victoria. The direct road, between the point at which it crosses the Landing trail and Lac la Biche, passes through three large bodies of valuable spruce timber, one of which is six miles across. It also passes close to several large fishing lakes, which hitherto have been practically unknown. Owing to the country through which the road passes being almost entirely heavily timbered the road is not at present in good condition for travel, and Mr. Prince fears that the extra expense of bringing it into good condition would be greater than present circumstances would warrant. The fishing at Lac la Biche has been good this season and the people have a fair supply of fish for the winter. Rabbits are numerous; and owing to the absence of the snow bears are likely to be killed in large numbers, as they can be tracked to their lairs without difficulty. Had the people not been allowed to fish, contrary to the letter of the fishery regulations, they would now be very hard up if not in a state of starvation.

ARMED it is a week since the river closed at Edmonton, crossing with loaded teams is still dangerous, and from present weather indications may remain so for some time. On Saturday night as M. Maloney was crossing with a heavily loaded team below Fraser & Co's mill the hind wheels of his wagon went through the ice, but no further damage was done. This morning a number of teamsters and livery men went to work to make a safe crossing from Fraser & Co's landing to the south side, by spreading hay on the ice and then throwing water on it, with a view to having the water freeze and thereby thicken the ice at that place.

PUBLIC NOTICE.

Public Notice is hereby given that at the next session of the Dominion Parliament an application will be made on behalf of the Municipality of the Town of Edmonton for an Act, confining the boundaries of the Town of Edmonton, and the Northwest Territories, subject to any variations or restrictions that may be prescribed in or by such Act, and incorporating a joint stock company for the purpose of operating or of constructing and operating or of owning, constructing and operating a tramway in the vicinity of the said Municipality, or authorizing the incorporating of such a Company by Letters Patent.

Dated at Edmonton, N.W.T., October 26, 1893.

BECK & EMERY, Advocates for the Municipality of the Town of Edmonton.

BY-LAW NO. 56.

A By-Law to provide for borrowing the sum of \$6,070 upon the credit of the Municipality.

Whereas it is expedient that there should be raised by the Municipality of the town of Edmonton the sum of \$6,070 to enable the Municipality to pay certain amounts temporarily borrowed and expended for the following purpose that is to say:—Purchase of fire engine \$1,000.00, purchase of hose and ladders and other fire apparatus \$25.00, purchase of fire hall \$500.00, purchase of musical instruments for fire brigade \$25.00, cost of construction of bridge over Little Creek \$237.35, and cost of incidental to land expropriated for the purpose of improving Jasper Avenue and Nanayaw Avenue \$1,000.00 amounting together to \$5,070.00 the interest whereon amounts to \$309 making the total of \$5,379.00.

And whereas the value of the rateable property in the Municipality, according to the last revised assessment is \$22,092.36 (incurred in respect of local and permanent improvements) and \$20,474.76 for interest thereon making together \$22,024.10 whereof no part is in arrears.

And whereas it is expedient to borrow the said sum of \$6,070 by the issue of debentures, the principal of which shall be payable within 10 years from the date upon which this By-law shall take effect and which shall bear interest in the meantime payable half yearly at the rate of five per cent per annum.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount which will be required to be raised annually by a special rate for repaying the said debt of \$6,070 by means of a sinking fund as aforesaid, and the interest thereon as aforesaid is \$787.00.

And whereas the annual special rate on the dollar on the rateable property in the Municipality according to the last revised assessment roll required as being sufficient to pay the said interest and to create the said equal yearly sinking fund for the paying of the principal is eighty-five one hundredths of a mill.

Therefore the Mayor and Council of the Municipality of the town of Edmonton in council assembled enact as follows:

(1) This By-law is to take effect on the first day of November, 1893.

(2) The Mayor and Clerk of the Municipality may borrow on the credit of the Municipality the sum of \$6,070 and may issue debentures of the Municipality to that amount in sums of not less than \$100 each, and repayable within 10 years from the 1st day of November, 1893, with interest at the rate of five per cent per annum, payable half yearly; such debentures to be payable at the office of the Treasurer of the Municipality of the Town of Edmonton, Edmonton, Alberta, N. W. T., and to have attached to them coupons for the payment of interest.

(3) For the purpose of paying the amount which shall be required to be raised annually for paying the said interest and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of \$6,070, a special rate of eighty-five one hundredths of a mill on the dollar, and above all other rates and taxes shall be levied (in the same manner and at the same times as the general municipal taxes) upon the whole rateable property in the Municipality annually for the period of 10 years from the 1st day of November, 1893, being the period during which the said debentures will run.

(4) Monday the 25th day of September, 1893, between the hours of 9 o'clock in the forenoon and five o'clock in the afternoon at the office of the town clerk, Edmonton, is hereby fixed as the day and hour and place for taking the votes of the electors for and against this proposed by-law.

(5) A. G. Randall is hereby appointed returning officer and J. R. Michael deputy returning officer to the election to be held on the said day and at the said place.

(6) Monday the 25th day of September, 1893, at the hour of 6 o'clock in the afternoon at the town clerk's office, Edmonton, is hereby fixed as the time and place when and where the returning officer shall sum up the number of votes given for and against this proposed by-law.

Provisionally adopted in council this 23rd day of August, A.D. 1893.

JOHN A. McDUGALL, Acting Mayor.

A. G. RANDALL, Clerk.

Finally passed in Council this 27th day of September, A. D. 1893.

M. McCauley, Mayor.

A. G. RANDALL, Clerk.

I hereby assent to By-Law No. 56 of the Municipality of the Town of Edmonton, providing for borrowing the sum of \$6,070.00 upon the credit of the Municipality.

(L. S.) J. ROYAL, Lieutenant Governor Northwest Territories.

Government House, Regina, 12th October, 1893.

NOTICE.

The above is a true copy of a By-Law passed by the Municipality of the Town of Edmonton on the 27th day of Sept., A. D. 1893, and approved by His Honor the Lieutenant Governor-in-Council on the 12th day of Oct., A. D. 1893, and all persons are hereby required to take notice that anyone desirous of applying to have such By-law or any part thereof quashed must make his application for that purpose to the Judge of the Supreme Court within three months next after the third publication of this notice, or he will be too late to be heard in that behalf.

EDMONTON BULLETIN, NOVEMBER 29th, 1893.

THE WINNIPEG ELECTION.

The election contest now in progress in Winnipeg, which will close on Wednesday next, merits more than ordinary notice. The constituency is the most important in Western Canada, and necessarily the most sensitive to anything that concerns the welfare of the North West, or any part of it. One of the candidates is a man of mark, whose election would mean more than his own vote on whatever side that vote were cast, and the question at issue is one of the most important that can come before the electors of any country, namely a reform in the system of taxation. This question has assumed large proportions during the past year, and in no part of the country is its importance felt to be as great as in the North West, of which Winnipeg is the commercial metropolis. The expression to be given on that question by the electors of Winnipeg on the 22nd will have a very great influence for good or ill on the present and future of the North West as a whole. If Winnipeg declares for tariff reform it will be acknowledged to be for the time the mouthpiece of the North West, and some substantial reforms may be looked for as the result in preparation for the next general election. But if a majority of the electors of that city say that they do not want tariff reform, or only want it in such measure as the monopolists see fit to concede, it will be taken to mean that the North West as a whole is satisfied to bear its present burdens, and if it is who would be so foolish as to expect that those burdens would be lightened? It would not necessarily mean that the majority of the producing or commercial classes in the North West really approved of the present tariff, but it would mean that the controllable and purchasable vote of Winnipeg was large enough to swamp the vote of those members of the producing and commercial classes who desired tariff reform, and that as the vote of Winnipeg could be carried against its own interests so could the vote of the rest of the North West. No doubt the importance of the result of the contest is understood by the very astute managers of the combines whose interests are at stake, and no doubt plenty of funds will be forthcoming for the purchase of every purchasable vote. While the leaders who favor a high tariff have a direct financial interest in keeping up the protective duties those who favor a lowering of the tariff have no such direct inducement to spend their own money in an election. Consequently the balance in any purchasable constituency is very strongly in favor of the high tariff side. It is only when people fully appreciate their individual responsibility for the protection of their own interests in an election contest that tariff for revenue can hope to win against protection. Certainly if any man can rouse the electors of Winnipeg to a sense of their responsibility Joe Martin is the man. Mr. Martin is a man of the highest courage and the greatest energy, a man who in his short political career has made a bigger and brighter mark on the page of his country's history than most politicians find to their credit after a lifetime of so called public service. His record shows that he believes in office not for the sake of office, but for the sake of power to accomplish some purpose that he believes to be good. His opponent's claim to support rests on the very simple grounds that he is a supporter of the government and as a supporter is likely to be more successful in getting the St. Andrews rapids on the Red River deepened than Mr. Martin as an opponent would be. As Mr. Martin pointed out, in view of the fact that Hugh John Macdonald could not secure justice to Winnipeg in that matter, Mr. Campbell's chances of being able to do so were not great. Mr. Campbell is in favor of tariff reform—to whatever extent the government is willing to concede it; but it is hardly

necessary to say, judging from last session's experiences and the expressions of the ministers since, that any measure of reform conceded by the present government will be of very little value to the producers of this country. A peculiarity of the election is that Mr. Martin who overthrew separate schools in Manitoba offers himself as a supporter of Laurier whose opinions on that question are well known to be the opposite of those put in effect by Mr. Martin. Certainly politics like poverty makes strange bed fellows. But it is only another case showing the wisdom of the scheme of confederation whereby certain questions are provincial and others federal. Messrs. Martin and Laurier differ on the provincial school question but they agree on the federal question of tariff reform and there is no really good reason why their differences on the provincial question which does not necessarily enter into the realm of federal politics should interfere with their united action on matters of purely federal politics, should Mr. Martin be elected. At the same time there is no doubt that those who would derive the greatest personal gratification from the success of Mr. Laurier will do their utmost to defeat Mr. Martin in the present contest.

Free Press: The Soo line announces winter and holiday excursion rates from North Dakota points to eastern Canadian territory, Montreal and west. Round trip rates from Port, \$45; Minot, \$43.60; Harvey, Carleton Place and Valley City, \$40. Tickets on sale November 21st, December 5th and 11th to 31st inclusive, good to return three months from date of sale.

Battleford Herald: The site of the Sir John Macdonald Memorial church which is proposed to erect in St. John's parish, Battleford South, has been marked out, and the stone for the foundation will be hauled this winter. The church will be built on the top of the hill near the ruins of Judge Rouleau's house.

The Toronto Empire refers to the bad water with which that city is supplied as follows: "It is said that when Dr. Bryce attempted a few days ago to analyze a drop of water from Toronto Bay it crawled away in three directions and is now at large in the city."

Dalton McCarthy held a big meeting in Stratford, Ontario, on November 11th. Col. O'Brien and Rev. Dr. Wild addressed the meeting. The Orange order presented addresses. W. B. Freeborn, reeve of Mornington was selected as the McCarthy candidate for the constituency.

Calgary Tribune: The Galt road, which is now a standard gauge, will be taken over by the C.P.R. about the 15th of this month. It will be operated from Medicine Hat. Two crews, Nason's and Cunliffe's, will handle the passenger trains on it.

The Selkirk Record says: Mr. Duncan MacArthur of the late Commercial bank of Manitoba, intends shortly opening a private bank in Selkirk.

W. Ogilvie, D. L. S., was in Winnipeg on November 13th on his return from the Alaska boundary.

Tracklaying on the Nakusp and Slocan railway, British Columbia, is suspended for the winter.

The Lethbridge coal mines are turning out 1,000 tons daily.

A Mrs. Sidney of Toronto has given birth to triplets.

FOR SALE OR TO RENT.

Improved and Unimproved farms close to the Townsite.

NOTE.

Fort Saskatchewan is situated on the banks of the North Saskatchewan River, and is the centre of the whole District of Edmonton, which is supposed to be the best agricultural and stock raising District in the whole Canadian Northwest, and has the Beaver Hills as a back ground, making it the most picturesque townsite in the West.

Anyone visiting Northern Alberta, should come and see

Fort Saskatchewan

THE MUSK OX

Until a very few years ago the musk ox was an almost unknown animal, but the increasing scarcity of skins suitable for robes has caused that of the musk ox to increase in value as to induce the Indians to venture out on the bleak barren grounds to hunt them. These barren grounds are an immense extent of treeless country more than 1,000 miles in length by 500 in breadth in the widest part, and lie northeast of the Mackenzie basin, between the Laurentian range which forms the north-eastern boundary of that basin and the Arctic ocean and Hudson's Bay. That any animal of the same species as the domestic ox could exist and thrive in such a country having such a climate is most remarkable. But the musk ox is a remarkable animal. The skins belonging to R. Secord which have been stored in J. A. McDougall's warehouse for some weeks past average about six feet long by six feet wide, although some are considerably larger. They show that the animal has a large short body mounted on very short legs not more than a foot or a foot and a half in length. The robe shows a thick layer of fur next the skin of the animal, and on every part except the middle of the back is besides a growth of long, dark, somewhat coarse hair, which must reach nearly to the ground, even when the animal is standing up. The tail is very short, the head large and the neck very short and thick, the head and neck being covered by the same growth of long hair as the under part of the body. The horns are the most peculiar part of the animal. They start from the centre of the forehead on the skull and spread to each side above the eyes, only becoming round after they leave the side of the head. After clearing the side of the head they bend downwards along side the jaws and turn upward just above the point of the nose. They are of no use as weapons to the animal. On the forehead where the horns take root the plate of bone and horn is four inches thick. That they are well protected from the extreme cold of winter will be seen by this description, but what they live on, or how they manage to move about in the deep snow is not very evident. While their home is on the open plains both in winter and summer, in particularly severe winters they come near or into the edge of the woods. They are then more easily reached by the Indians and are killed in comparatively large numbers. If they remain far out on the plains all winter the Indians cannot go after them to good advantage for lack of wood. When hunting them the Indians are said to take dogs and when the oxen hear the dogs barking they bunch together as they would to repel an attack of wolves, and may be slaughtered at leisure by the hunters. Fort Rae on the northern arm of Great Slave lake and Fort Resolution on the southern shore of the same lake at the entrance of the Great Slave river are the only H. B. posts to which musk ox robes are brought for trade, the bulk of them going to Fort Rae because it is closer to the Barren Grounds. But last spring a large number of the Fort Rae Indians took their robes to Resolution on account of the better prices offered there. The number of musk oxen killed has been increasing every year, but the country inhabited by them is so large and so inaccessible that there is very little danger of their being exterminated unless they are hunted in the summer time, during which the robes of course have no value. As an article of food they are of little value on account of the musky flavor of the meat.

BULLETIN,

(SEMI-WEEKLY)

Telegraphic News,

General News,

Local News,

All the News.

104 PAPERS

—IN A YEAR FOR—

\$2.00.

News of Edmonton and surroundings up to hour of issue.

News of the world by telegraph up to day of issue and from two to five days ahead of any other paper reaching Edmonton.

Controlled only by the proprietor and therefore always ready and willing to speak out for the good of the town and district.

THE BULLETIN is read more generally throughout the Edmonton district than any other paper.

If you want to do business in the Edmonton district you can reach more of the people with a less expenditure of money through the advertising columns of the BULLETIN than by any other means.

Fair advertising rates charged, and like rates to all parties.

No advertising of a questionable nature admitted if its character is known.

THE BULLETIN Printing office is second to none in the Territories. Only first-class type, machinery and paper employed. Printing of all kinds done promptly, neatly and cheaply. Call and see samples of work, and get prices before ordering your printing elsewhere.

A newspaper is not a producing industry, but if properly conducted it assists and stimulates production and progress more than any other single agency of like cost. Money spent towards the support of a newspaper is almost entirely spent within the town in which the paper is published and is therefore not lost to the business of the town.

The local newspaper represents the district in which it is published to the outside world.

Support your home paper liberally if it deserves support, so that it can give the best possible impression of your town and district as a field for immigration and investment.

There is big money for a new town in having a live and interesting paper.

In the matter of the Estate of Thomas Smith,

deceased.
Upon the application of Andrew McNicol, the Administrator of the estate of the said deceased, and upon reading the petition, affidavit and other documents filed upon his application for letters of administration:

I do hereby order that all creditors and persons having claims against the estate of the said Thomas Smith, deceased, late of South Edmonton, in the District of Alberta, Minor, who died on or about the thirteenth day of May, 1903, do send in their claims against the estate of the said deceased to Messrs. S. S. & H. C. Taylor, of Edmonton aforesaid, Advocates for the said Andrew McNicol, within six weeks after the first publication of this notice in the Edmonton Bulletin:

I do hereby direct that this order shall be published in the said newspaper once in each week for four consecutive weeks.

And notice is hereby given that at the expiration of the time above fixed the said Andrew McNicol shall be at liberty to distribute the assets of the deceased or any part thereof among the parties entitled thereto, having regard to the claims only as to which the said Andrew McNicol has then notice, and that he shall not be liable for the estate or any part thereof so distributed to any person of whose claim the said Andrew McNicol shall not have had notice, at the time of distribution of the estate or any part thereof as aforesaid.
